STANLEY®

INTRODUCING STANLEY® PERSONAL PROTECTION

Introducing Stanley® Personal Protection

What do you get when you combine the leading brand name in the Do-It-Yourself Channel with the leading worldwide manufacturer of personal protective equipment? The result is an entirely new, premium class of safety products that brings brand excitement to the safety category and takes quality, comfort and style to the extreme.

The Stanley® Personal Protection line features products that are engineered with the same dependability, innovation and integrity that you have come to expect from the Stanley® name. Each Stanley® safety product is made with the highest quality materials, using state-of-the-art procedures and equipment. Users get a top-of-the-line, comfort-engineered, stylish product that meets the most rigorous industry standards, ensuring your customers' satisfaction and loyalty.

Recognized as one of America's greatest brands, Stanley is the no. 1 preferred brand among users of hand tools in the U.S., making the Stanley® Personal Protection line a perfect complement as the most identifiable stand-alone safety offering on the market.

Stanley is a brand on the move! To drive continued success in the marketplace, Stanley has strengthened its brand presence through an aggressive stream of innovative new products, bold packaging and best-in-class merchandising. Exciting promotions and award-winning advertising in television, print, web and through NASCAR racing sponsorships are delivering new levels of awareness and driving explosive retail results.

In fact, over the course of 2004 and 2005, these advertising and marketing campaigns yielded strong results, as evidenced by various metrics: *web traffic increase of 60%; sales lead increase of 27%; plus brand awareness and intent to buy increases.* Furthermore, in a 2005 brand equity study, the Stanley brand enjoyed *95% aided brand awareness among users.*

For more information on the Stanley® Personal Protection line and how we can enhance your safety sales, please contact one of our customer service representatives or visit us at www.stanleypersonalprotection.com.

Eye & Face Protection

The Stanley[®] Personal Protection line offers the widest variety of products for eye and face protection, including safety eyewear, goggles and a faceshield. Each piece is designed with protection, durability and style in mind. All of Stanley's eye and face protection products meet or exceed American National Standard Institute (ANSI) safety standards and provide 99.9% protection from harmful UV rays. Many of the eyewear products meet Canadian Standards Association (CSA) safety standards and the military V₀ ballistic standard for impact (seven times industry requirements!).

Stanley® Lens Technology: Specifications and Suggested Uses

Stanley's safety eyewear is available in a variety of different lens tints. Selecting the perfect lens tint depends on the environment in which it will be used. The clear lens is designed for most indoor applications. For outdoor applications where sunlight and glare could cause eye strain and fatigue, an espresso, TSR gray or mirrored lens works best. The amber lens is for use in low light applications in which contrast may be enhanced.

Gray

PROTÉGÉ™ SAFETY EYEWEAR

Respiratory Protection

Stanley's line of respiratory protection is designed to maximize wearer comfort, fit and protection. Our disposable respirators are lightweight, humidity-resistant and include a latex-free filter media for lower breathing resistance. Stanley offers a variety of reusable respirators for different applications, including painting, gardening and cleaning. Each reusable respirator included in the line meets all relevant NIOSH safety standards.

NUISANCE DISPOSABLE DUST MASK

- Suggested applications: pollen, dust, dander*
- Single strap

RST-64003	SAF-T-FIT Plus N95, Box of 20	10	0 40025 64003 4

Selecting and Using Particulate Filter Disposable Respirators

There are three separate filter classes (N, R, P) and three separate filter efficiencies (95%, 99%, 99.97%). N-class particulate respirators are approved for solid and liquid particulates, excluding oils. The R-class is for both oil and non-oil solid and liquid particulates, with a maximum 8-hour or one shift use restriction when used for oil mists. A P-class respirator is approved for both oil and non-oil particulates and has no time use restriction.

N95 DISPOSABLE RESPIRATOR WITH BOOMERANG NOSE SEAL

- Disposable respiratory protection for sanding, woodworking, installing insulation, non-toxic spray painting and other workshop uses
- NIOSH-approved N95 protection: TC-84A-3769

PAINT, LAWN AND GARDEN SPRAY DISPOSABLE HALF MASK RESPIRATOR

- For use in dusty and dirty conditions where it would be impossible to reasonably clean the respirator for reuse. Examples include paint and pesticide spraying, welding, pharmaceutical, textile, primary metals, automotive, chemical operations
- Respirator is pre-assembled with cartridges/filters and ready to use for added convenience; eliminates assembly mistakes
- Replacement parts and decontamination concerns are eliminated
- Rolled edges, broad sealing flange, chin port and forward angled nosepiece provide secure, comfortable fit

PART	DESCRIPTION	CASE PACK	UPC
RST-64010	Freedom® OV/N95 Respirator	4	0 40025 64010 2

PAINT/PESTICIDE RESPIRATOR

- Equipped with OV/N95 cartridges and filters to protect against paint sprays and pesticides
- Ideal for limited use, limited life applications without sacrificing comfort and fit
- Combined NIOSH-approved protection with low breathing resistance and the comfort of more expensive respirators
- Soft sealing flange and forward angled nosepiece easily accommodate eyewear
- Incorporates a perspiration port to reduce facepiece slippage and skin irritation

PART	DESCRIPTION	CASE PACK	UPC
RST-64011	VALUAIR® OV/N95 Respirator	4	0 40025 64011 9

DELUXE PAINT/PESTICIDE RESPIRATOR

- Equipped with OV/N95 cartridges and filters to protect against paint sprays and pesticides
- Ideal for professional users because the high quality silicone facepiece includes a soft sealing flange with rolled edges for extra comfort
- Low breathing resistance makes it one of the easiest breathing respirators of its type
- Incorporates a perspiration port to reduce slippage and skin irritation
- Low profile nosepiece allows for compatibility with eyewear
