

STANLEY® PERSONAL PROTECTION

# P100 DELUXE DISPOSABLE RESPIRATOR

Meets OSHA, EPA,  
and HUD filtering  
facepiece  
requirements for  
lead exposure

**Stanley® Personal Protection  
P100 Deluxe Disposable Respirator**

Engineered to fit comfortably all day long, the Stanley® P100 Deluxe Disposable Respirator features a full face sealing flange that is soft, pliable and forms to the natural shape of the face. This respirator meets OSHA, EPA, and HUD filtering facepiece requirements for lead exposure. In addition, its NIOSH-approved P100 protection provides 99.97% particulate efficiency against both oil and non-oil based particulates (vs. an N100 that protects against non-oil particulates only).

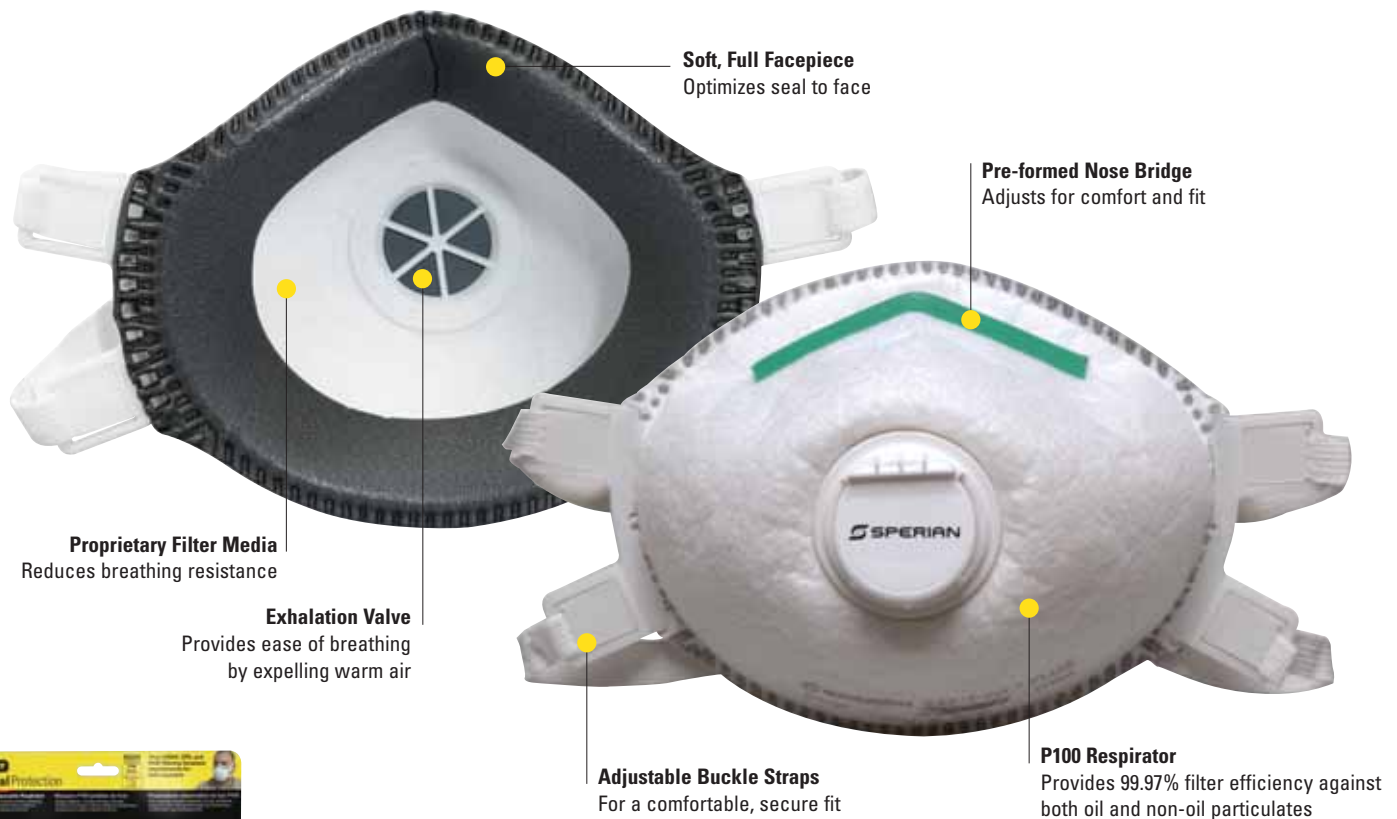

**Personal Protection from a trusted brand.**
